

YOUR PARTNER IN RISK REDUCTION DURING COVID-19

WE CARE
KEEPING YOU SAFER IN
UNCERTAIN TIMES

At Tsebo, the health and safety of our colleagues, customers, partners and the communities in which we operate are our number one priority. We have a nearly 50-year legacy of providing responsible workplace management solutions and are committed to doing all we can to keep everyone safe, including implementing additional COVID-19 specific precautionary measures.

Tsebo Solutions Group has established a joint Crisis Management team that meets daily to monitor the COVID-19 situation. This committee is in regular contact with the relevant government agencies and public-health authorities to stay informed and take the necessary decisions and actions. For more information on Tsebo's response to the virus, business contingency plans, and preventative educational campaigns to minimise the spread of the virus and more, please visit: www.tsebo.com

SERVING OUR CUSTOMERS

SUPPORTING YOU IN **REDUCING RISK**

Since the outbreak of Coronavirus (COVID-19), Tsebo has been working closely with customers on an advisory and execution level. With ever stricter measures being implemented by governments to curtail the spread of COVID-19 **risk reduction is vital**, now more than ever.

Staying at home and continuing to practice preventative measures is the best. However, it is essential that certain institutions, shops, depots, offices and healthcare facilities remain open. Tsebo remains committed to providing the relevant essential services to clients during lockdown and is ready and available to extend these solutions to all customers once restrictions begin to be lifted.

Here is how Tsebo can support your business during these trying times:

THORBURN SECURITY SOLUTIONS

During the COVID-19 crisis, Security Officers are expected to assist government efforts to combat the virus, in addition to maintaining their service standards. Thorburn Security Solutions specialises in intelligence-driven security solutions for high-risk situations, from enhanced guarding and electronic surveillance to providing Thermo-Detection Cameras to identify at-risk individuals with unusually high body temperatures.
